Great Results Guarantee

Under this agreement for 2014
Karumba State School will receive $10,244*

This funding will be used to

- Increase the number of Year 3 students in the U2B for Naplan Reading from 33% to 50%.
- Develop a Learning Plan for students who are below the National Minimum Standard in Reading for students in Year 1 to Year 3.

Our strategy will be to

- Use a case management approach. (Teachers identify students through data; identified students receive intensive support for 30 minutes daily with tutor; school team comes together in scheduled case management meetings each week to discuss individual student progress and the appropriate intensive strategies.)
- Short term data cycle—chart PM reading level and word recognition level progress with the regional reading benchmarks as the targets.
- Tutor will use a reading recovery style of lesson
- After review of student progress goals are set for each 5 weeks by the student and learning support teacher aide
- Parents are kept informed of the students' progress each week.
- Successes for the students will be celebrated on parade with the student's photo with award entered in the fortnightly newsletter.
